JUNIOR

# SMALL PEOPLE – GREAT PROTECTION

Children do not care about safety, they want to have fun. Whether running around playing in the street or messing around on their way to school – you need to be able to ensure your child's safety. PLANAM has developed the Junior collection so that children can enjoy carefree playtime.

It is particularly important to have clothing that drivers can see from a distance. All PLANAM Junior Collection products therefore have 3M™ Scotchlite™ reflective piping and offer good visibility, even in poor conditions. The high-quality, lightweight blended fabric in a ripstop effect is made from 35 % cotton content and has been tested by OEKO-TEX® STANDARD 100 to prove it is free from harmful substances. Just like our adult ranges, the Junior Collection is comfortable, and offers children plenty of freedom of movement and practical features for storing their little treasures.

# JUNIOR Trousers

## Easy-care with plenty of pockets

Dirt is not a problem. These Junior Trousers can withstand lots of washing and five pockets provide ample space for toys.

### Extras

- 2 side patch pockets
- thigh pocket with flap and press stud on left leg
- double ruler pocket on the right
- adjustable elastic in the waistband
- zip fly
- waistband with 7 belt loops and press stud
- reflective piping
- 2 rear patch pockets with Velcro closure

### Clothing sizes

#### Children's sizes

# JUNIOR Softshell Jacket

## Windproof and breathable

The Softshell Jacket keeps its promise in the wind and bad weather: the breathable material keeps the body at a consistent temperature while still keeping the wind out.

### Extras

- breathable
- water-repellent
- windproof
- 2 side pockets
- front zip
- reflective strips on the front and back
- stretchy cuffs
- soft fleece inside

### Clothing sizes

#### Children's sizes

86/92, 98/104, 110/116, 122/128, 134/140, 146/152, 158/164, 170/176

### Certificates and standards

**3M Scotchlite**  
Reflective Material

The **side zip pocket** keeps important things securely stashed away.

The **chin guard** protects against annoying chafing on sensitive skin.

The **longer back** protects little ones, even when on their knees or crawling around.

The **fleece fabric** inside always feels nice and fluffy.

# STANDARDS & CERTIFICATION

The OEKO-TEX® Standard 100 is an independent testing and certification system for raw, intermediate and end products for textiles from all stages of processing. Examples of certifiable articles are raw and dyed/refined yarns, raw and dyed/refined woven and knitted fabrics, ready-made articles (garments of all types, home textiles, bedding, terry towelling, toys made of textiles and many others).

## Criteria

Tests for harmful substances cover:

- substances banned by law
- substances regulated by law
- chemicals that are known to be potentially harmful to health (but are not yet regulated by law)
- healthcare parameters

In their entirety, the requirements go well beyond existing national legislation.

## Why OEKO-TEX®?

The OEKO-TEX® Standard 100 was developed in the early 1990s as a response to the need of consumers and the general public for textiles that do not pose a risk to health. Negative headlines such as “Poisons in textiles” were widespread at the time, labelling all chemicals used in the production of textiles as negative and harmful to health.

Fashionable colours, easy care, long life and many other functional properties are demanded of textiles today and are, to some extent, and depending on their intended use (e.g. for professional and protective clothing), quite indispensable.

## Reflective band 3M™ Scotchlite 8912N

3M™ Scotchlite™ Reflective Material 8912N Silver has been designed for use on high-visibility clothing, workwear and professional clothing to improve the visibility of the wearer when it is dark or visibility is poor. The material shines a brilliant white when illuminated by vehicle headlights, even if the wearer is at the edge of the road. Scotchlite™ Reflective Material 8912N Silver is composed of exposed retroreflective lenses bonded to a durable blended fabric (65% polyester / 35% cotton). It far exceeds the minimum retroreflective performance required by the highest category (class 2). Its retroreflective properties are not dependent on the direction the clothing is facing.

## UV protective clothing with integrated sun protection

The largest organ of the human body is the skin, and it is exposed to great danger in summer. UV rays from the sun can increase the risk of skin cancer. Standard textiles are radiolucent, providing insufficient protection.

PLANAM's UV-protective clothing gives guaranteed certified safety.

Awarded UV protection certificates “PROTECT 80” and “PROTECT 40”, this range guarantees maximum prevention. Just like for sunscreens, the figure indicates the protection factor for safely spending longer in the sun. Our PLANAM models allow the wearer to remain in the sun 80 and 40 times longer than those without protection. With their integrated sun protection factor, the finished garments provide the skin with optimum protection. Those with sensitive skin can stay in the sun longer without having to cover themselves in sunscreen. It is important to know the individual skin type in order to determine the individual's protection time (length of possible exposure to the sun without risk of skin damage). The stated UV protection factor (e.g. Protect 80) gives the factor by which the individual's protection time can be extended just by wearing these textiles.

# SERVICE

## The first impression is the key

The right work clothing is always a calling for your company and is also used as free advertising space with your logo. We bring your message to a wider audience – with the PLANAM finishing service.

### Infinite variety

There are thousands of variations and options to personalise the PLANAM products and create an individual design. Here we are showing you a small selection of what is possible, in order to inspire you and give you ideas. Please contact us for expert advice to find out which type of finishing fits most optimally with our products. You explain your requirements and we will make them happen in as short time as possible.

### Small order or large production runs

It doesn't matter whether it is a small trade business with 5 employees that needs to be equipped with CI Clothing or a large industrial company with several hundred employees. We can create up to 1000 emblems a day for you at the Herzebrock-Clarholz site.

### Finishing of Personal Protective Equipment (PPE)

It is particularly important in relation to the finishing of Personal Protective Equipment (PPE) that the type of finish added is specifically suited to the PPE type examination certificate and is recertified accordingly. Here to, PLANAM offers a multitude of certified options for attaching your company logo on the PPE.

For any modification to the PPE which is not recertified, the type-examination certificate will no longer be valid and the complete protection of the wearer can no longer be guaranteed.

Available in any colour and with vast design options for a size of max. 390 x 390 mm.

Special embroidery thread made from high-quality polyester guarantees long-term durability.
